MEMORANDUM FOR THE RECORD

SUBJECT: @ Dr. SCHREITER []

1. @ Dr. SCHREITER appeared in the UPSWING compound early in 1957. @ KUTZ-BACH informed [] that @ Dr. SCHREITER had been removed from his position in Bavaria as a result of personality clashes. He apparently is taking over the work previously handled by @ HORNBERG, although he carries the numerical designation 127.15. To date we have had little contact with @ Dr. SCHREITER except in the turnover of one case. On this matter he demonstrated a fairly cooperative attitude and there were no major points of friction (this was not surprising since we were handing UPSWING a going operation). There is a considerable file on @ Dr. SCHREITER giving quite a bit on his background. The only thing that can be added here is that he recently took a two-week vacation in the Allgäu without his wife. He wryly commented at the time that his wife was sick and therefore could not accompany him, but that actually he was not too sad about this development.

2. It may be presumed that @ Dr. SCHREITER will handle general, run-of-the-mill CE cases in the future, not specializing in the cases run by the services of any one particular nation.

3. Comment on his degree of cooperation, political views, etc., must be deferred until we have had more contact with the individual.
